Your journey to great skin

YOUR SKIN JOURNEY STARTS HERE...

At DMK Skin Revision, we know that no two skins are the same.

We endeavour to utilise what treatments we think will be best for you so we always like to start with consultation and Enzyme Therapy as your introduction into the incredible power that the DMK skincare line has to offer. We also believe that when you treat your skin right you should be rewarded so we offer great rewards programs, just ask one of our friendly team members how they work.

CONSULTATION

Before we embark on your skin journey we ask that you share with us some important information. From here we can create a clear picture of how we can get you on the path toward your skin goals using the unfailing DMK philosophy: remove, rebuild, protect and maintain.

Consultation: **\$99**

Consultation and DMK Enzyme

Treatment: **\$259**

Zoom Online Consultation: **\$99**

Every Enzyme Treatment is concluded with a multi vitamin, mineral, amino acid, essential fatty acid infusion to ensure your skin is fed a supremely nutritious diet for optimal skin health.

Enzyme – The pulsing heart of your DMK journey DMK Enzyme Therapy is a signature DMK treatment. On each visit to DMK Skin Revision Clinic, we will assess your skin and concerns to tailor your treatment and program to you. Firms, brightens and detoxifies.

Level 1 - Enzyme Therapy
no pre-treatment **\$210**

Level 2 - Enzyme Therapy +
1 pre-treatment **\$230**

Level 3 - Enzyme Therapy +
2 pre-treatments **\$250**

Level 4 - Instant Lift – perfect for special occasions when an instant result is required. Lifts, firms, plumps and brightens **\$340**

A-Lift is a 12 week treatment program designed to stimulate the underlying structures of the skin to tighten, tone and restore a youthful appearance. **POA**

MEDILUX LED TREATMENTS

Now available at DMK Skin Revision Clinic is MediLUX advanced LED Light Therapy. We strongly believe that the combination of LED and Enzyme Therapy is the perfect match to achieve youthful, glowing skin.

Whether it be acne and uneven skin tone or fine lines and visible signs of aging – LED is a proven light-based skin corrective therapy that utilises LED (light-emitting diode) lights to heal and rejuvenate problem skin and turn back the clock for a clearer, younger, smoother and more radiant complexion.

MediLux LED Add-On to any Enzyme treatment **\$59**.

MediLux LED Treatment including cleanse and DMK Infusion **\$129**

Purchase 6 of any treatment get 1 FREE

READY FOR THE NEXT LEVEL...

DMK utilises both acid and alkaline solutions to achieve incredible skin remodelling and results:

- Acne
- Scarring
- Congestion
- Fine lines and wrinkles
- Folliculitis and ingrown hair
- Callouses
- Pigmentation
- Age management
- Stretch marks
- Milia
- Post surgical scars
- Excessive facial hair
- Rosacea

Alkaline Full Face \$115
with DMK Enzyme **\$280**

Alkaline Half Face \$85
with DMK Enzyme **\$250**

RP – Remodelling Procedure & 6 Layer Peel POA

Treatments will only be performed after consultation and Enzyme Therapy. You must be on DMK Home Prescriptives to ensure the integrity of the skin. Best results are achieved when combined with DMK Enzyme Therapy and alternating with other DMK Treatments.

FROM TOP TO TOE...

Body Enzyme increases circulation and lymph flow to detoxify and oxygenate. Firms, tones and tightens as well as deeply hydrating and softening. **POA**

Body Sculpting tightens and firms and assisted in reduction of cellulite. **POA**

MediPedi reduces callouses and dry, redundant build up on the soles of the feet to give you that “walking on cloud 9” feeling **\$80 Add-On \$70**

STICKING WITH TRADITION...

DMK Transdermal Nutrition Facials are designed to relax while using transdermal delivery to generate cellular change, leaving your skin feeling refreshed, restored and revitalised. Perfect for gifts.

45 mins **\$99**

1 hour **\$130**

Pro-Stamp Electro CIT is a non-invasive, virtually pain free procedure with little to no down time to treat:

- Wrinkles and fine lines
- Crows feet
- Improve texture and tighten skin
- Improve acne scarring
- Improve stretch marks
- May assist melanin restoration
- Restore UV damage

Full Face Pro-Stamp **\$495** includes DMK Enzyme and MediLUX LED treatment. Purchase 5 get one FREE.

How does Pro-Stamp work? The Pro-Stamp needling device pricks the skin multiple times stimulating cells in the skin to release growth factors and cytokines to increase the production of new collagen and elastin naturally. This influx of collagen and elastin plumps wrinkles and scars and also appears to reboot cellular function. The result is beautiful, healthy skin from the inside out without causing unnecessary damage to the skin. Needling also creates micro channels in the skin which enhance penetration of topically applied products for better absorption.

What can I expect? You can expect fresher, tighter, more youthful looking skin. In most cases you will see improvement after just one treatment. Expect to see continued improvement over time. The rejuvenation process advances after each treatment and you will see continuous improvement to the treated area up to 12 months. Expect the treatment to be virtually pain-free as topical anaesthetics are applied prior to treatment to ensure your comfort. Expect your skin to start to glow!
